

**Parsa Mehr Specialized Clinic
for Skin, Hair, and Beauty**

Mr. Ahmad Parsaie, the CEO and founder of Parsamehr Clinic, is recognized as a prominent and seasoned leader in the field of health and beauty, with over 10 years of experience. By combining medical expertise with managerial skills, he is committed to providing quality services and adhering to clinical standards at his clinic. His primary objectives include ensuring customer satisfaction and creating a positive experience in the areas of cosmetic surgery and dermatological treatments.

Parsamehr Clinic, the first medical center with an International Patient Department (IPD) license in Fars Province, proudly welcomes you. Utilizing advanced equipment and a team of experienced specialist physicians, Parsamehr Clinic provides medical and beauty services adhering to international standards. The clinic offers a wide range of cosmetic surgeries, advanced laser treatments, and various therapeutic methods tailored to the needs of each patient.

Parsamehr Clinic stands out for its use of cutting-edge world-class technologies, emphasis on patient comfort and health, and the professionalism of its medical team. Services provided at this clinic include cosmetic surgeries, laser hair removal, facelifts, fillers and botox, anti-aging laser treatments, and dermatological therapies.

The goal of Parsamehr Clinic is to create a safe, secure, and successful experience in improving your appearance and personal well-being. We look forward to your visit to this advanced center for treatment and beauty enhancement.

Parsamehr Clinic is proudly recognized as the most equipped and professional center in the field of beauty services in the southern region of the country. The team of experienced specialist physicians, accompanied by the use of advanced equipment, provides high-quality services to its clients.

At Parsamehr Clinic, with beard and mustache transplantation, you will discover a new experience of beauty and self-confidence. Our experienced and specialized team, using innovative methods of beard and mustache transplantation, helps you achieve a neat and attractive appearance.

Hair transplantation is a modern and effective solution for addressing hair loss and hair thinning issues. Parsamehr Clinic assists you in obtaining strong, natural hair using the latest hair transplantation techniques. Improving your appearance and restoring your confidence is our goal.

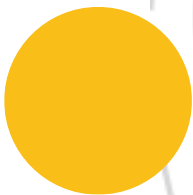

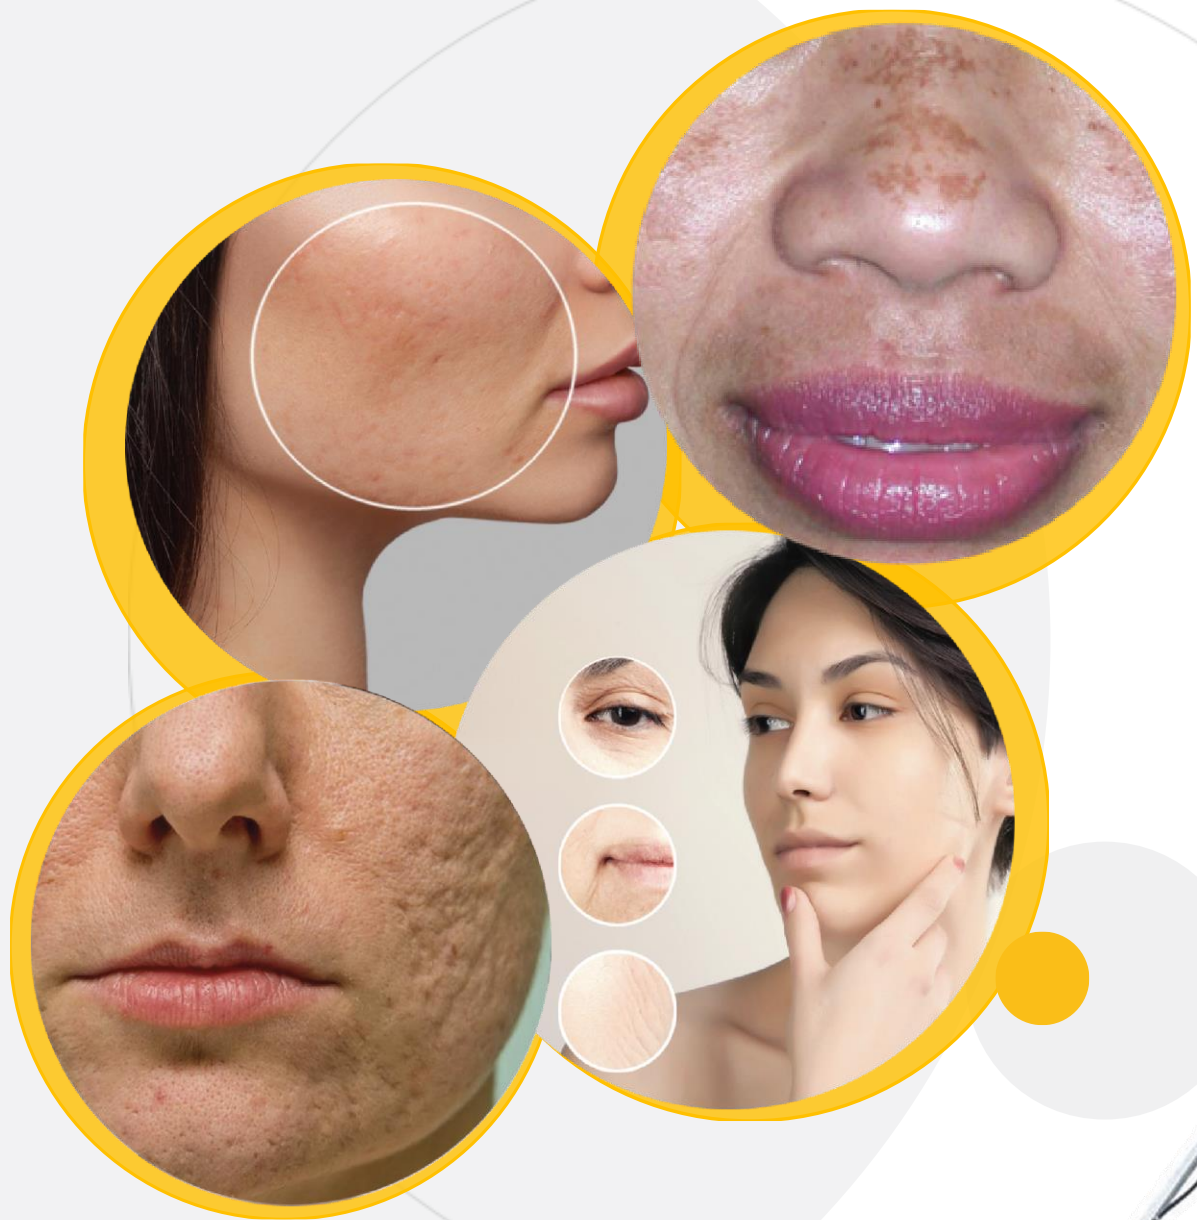

Parsamehr Clinic, with its provision of quality services and personalized approach, helps you achieve the beautiful and natural hair of your desire. From hair transplantation methods such as FIT, FUT, and SUT to specialized procedures like eyebrow hair transplantation, we offer a range of options tailored to your specific needs.

From the initial consultation to the transplantation process and beyond, our specialized team at Parsamehr Clinic is always by your side to ensure a safe and satisfying experience for you.

The facial experience at Parsamehr Clinic offers a novel approach to enhancing and rejuvenating your skin. By utilizing advanced technologies and professional services, facial treatments provide a unique combination for correcting skin imperfections, increasing smoothness, and improving skin tone. Tailored to the specific needs of your skin, you will notice noticeable results.

RF Fractional: Stimulating collagen production for skin rejuvenation.

Fractional CO2: Removal of prominent layers and rejuvenation.

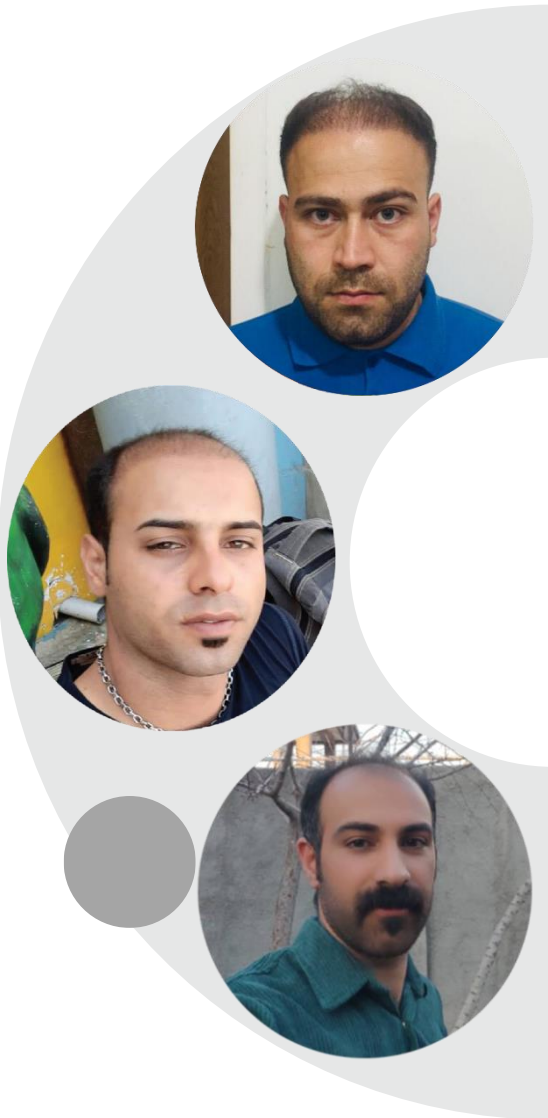

Plasma Jet: Skin rejuvenation with plasma energy.

Carboxytherapy: Skin rejuvenation with carbon dioxide.

Microneedling: Creating microscopic fissures to stimulate collagen.

Entrust yourself to us with peace of mind. At Parsamehr Clinic, we provide you with an opportunity to regain your confidence and unparalleled beauty. Our hair transplantation services utilize cutting-edge technologies from around the world.

We help you restore the shape and youthfulness of your hair using the latest technologies and best surgical methods. We are ready to accompany you every step of this journey to beauty, ensuring you have natural and attractive hair.

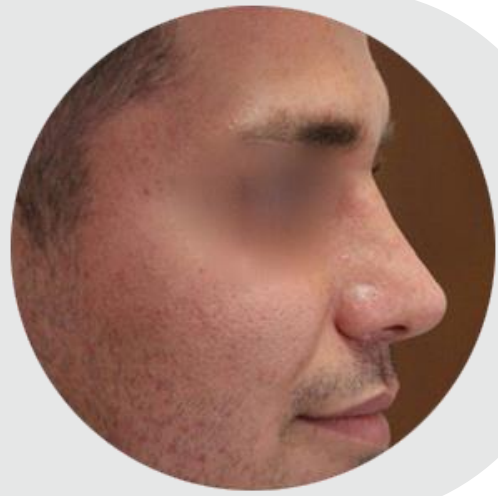

With precise and professional design, eyebrow transplantation at Parsamehr Clinic becomes a form of beauty art. Our specialized team, using advanced techniques and high-quality materials, enables you to have natural and attractive eyebrows. We are prepared to meticulously and professionally fulfill your beauty desires, increasing your self-confidence.

Parsamehr Clinic, specializing in breast, buttock, and lip prosthetics, offers high-quality services. The capabilities of physicians and specialists, along with advanced equipment, enable you to benefit from your natural beauty. Modern technologies are employed in breast and buttock prosthetics, while superior quality materials are used in lip prosthetics. You can confidently visit Parsamehr Clinic and avail yourself of its professional and safe services.

At Parsamehr Clinic, rhinoplasty is performed as a professional cosmetic procedure. This procedure aims to improve the shape and size of the nose, address respiratory issues, and enhance harmony with other facial features. Our team consists of skilled and experienced surgeons who, using advanced techniques, provide you with a natural and harmonious appearance.

At Parsamehr Clinic, services such as Botox injections, microneedling, and thread lifting are provided using advanced technologies. Safe and high-quality materials are used for Botox injections to reduce wrinkles and fine lines. Microneedling, on the other hand, stimulates collagen and elastin production to improve skin tissue using fine needles. In thread lifting, high-quality threads are used to increase skin elasticity.

At Parsamehr Clinic, dental services including laminates, implants, crowns, orthodontics, scaling, root canal treatment, and fillings are provided using advanced technology and a specialized team. Trust us for improving the appearance and health of your teeth.

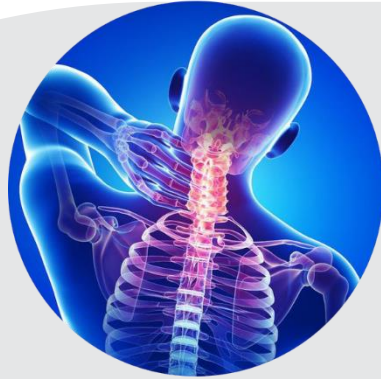

At Parsamehr Clinic, we take pride in providing specialized services in the fields of gastrointestinal treatment and surgery. Among the services offered in this area are food digestion, sleeve gastrectomy, laparoscopy, endoscopy, colonoscopy, and bowel resection.

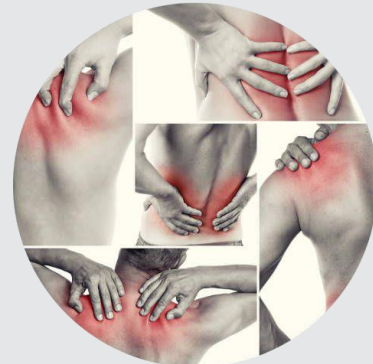

At Parsamehr Clinic, ophthalmic services including corneal and retinal surgeries, LASIK, diagnosis and treatment of cataracts and glaucoma, eye deviation, and cosmetic eye services are provided using advanced equipment. Find the best services in ophthalmology and eye beauty with us.

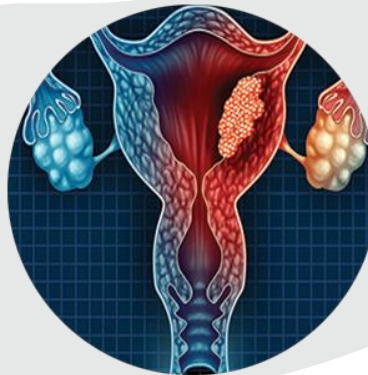

At Parsamehr Clinic, neurological and spinal services including spinal cord treatment, abrasion, spinal disc, and spinal stenosis are provided using advanced equipment and modern techniques. Our specialized team, focusing on accurate diagnosis and offering comprehensive solutions, accelerates the improvement of patients' health status in these areas.

At Parsamehr Clinic, a variety of services are provided with expertise and precision, ranging from hysterectomy to cervical cerclage, and from breast augmentation to reduction. With trust in us, benefit from high-quality and specialized services in women's health and beauty areas.

Parsamehr Clinic offers precision and high-quality hair removal services using advanced laser technology. The clinic's specialized and experienced team presents this method as a safe and permanent opportunity for managing unwanted hair, ensuring customers soft, smooth, and hair-free skin.

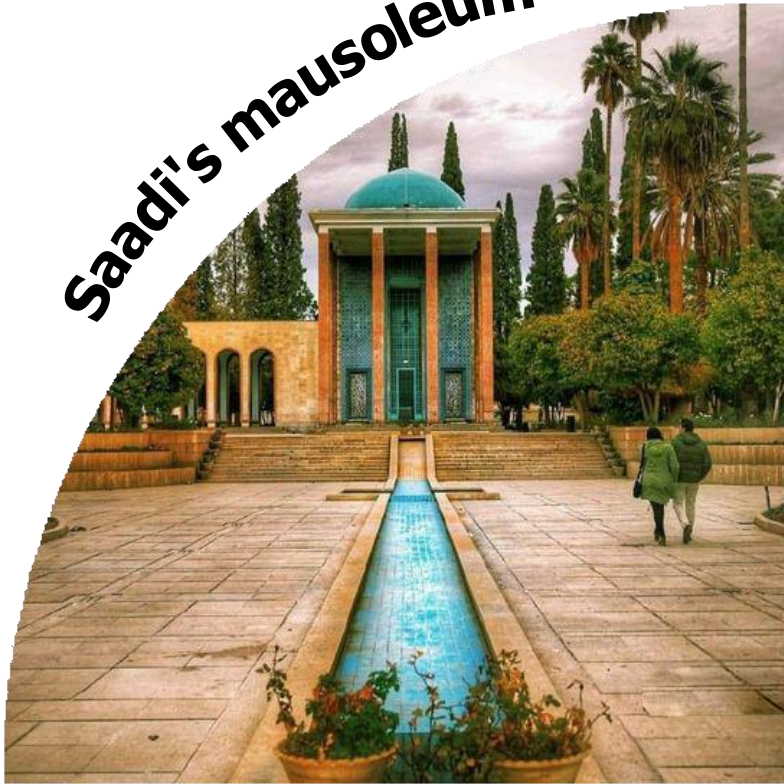

Shiraz, a historical and cultural city in southern Iran, attracts tourists with attractions such as Vakil Bazaar, historical mosques, and famous mausoleums such as Hafez and Saadi.
